# BRIDGES BY DESIGN | ELDER CARE

We provide high quality and personalized supportive care and services to the elderly and their families in the community. Acting as advocates for your health and wellbeing, we are here to assist with coordination of your care. We are also here to support, educate and assist you in your needs.

## Values

- We honour the aging
- We respect the uniqueness of individuals and families
- We assist with kindness, dignity and professionalism

## Goals

As a team, we are dedicated to ensuring that you feel informed and confident in your decisions for the future.

We are committed to being advocates during your decision making process and beyond.

We are here to personalize your needs and requirements.

We are a local company providing a large scope of services.

Our team of experts are here to meet your needs now and over time.

Combining our business experiences and compassion as caregivers, we are here to assist in the transition period during this important time of life for seniors and their families.

## Common Questions

- Where do I start and who do I talk to?
- Should I start with in-home support? If so, can we easily transfer to a retirement community in the future?
- How do I find the right retirement community for my Parents?

*We provide continuous follow up, vacation relief and offer pick-up and drop-off laundry services.*

## Our Services

### Assessment and assistance with care and service needs

Helping you determine the steps and resources available.

### Assistance with hospital discharge planning

Know what questions to ask and what to expect when you come home.

### Retirement community placement options

Let us help relieve you and assist you to navigate the maze of resources.

### Home care staffing

We will do the screening and selection of caregivers so that the appropriate support is provided.

### Companionship program

We can provide companionship in the home or assistance with shopping, appointments or special outings.

### Home and health safety consultation and assistance

A discussion about your nutrition, medication and activity levels will assist you to maintain as healthy a lifestyle as possible. We can review potential safety and prevention risks in your home.
